BlueNOW! by TÜV SÜD

Digital vehicle inspection without
physical presence

BlueNOW!: the vehicle inspection app for fast, convenient and independent vehicle condition assessment, via smartphone or tablet

TÜV SÜD BlueNOW! is a digital, visual vehicle inspection that is conducted by a TÜV SÜD expert - live and without physical presence.

With our TÜV SÜD app BlueNOW! we provide a smart solution for remote vehicle inspection of commercial vehicles for owners/users, fleet managers and car dealerships. Once you have confirmed your order with TÜV SÜD, we will send you a unique QR code to access the BlueNOW! app. You can then use the app to schedule an appointment with one of our experts, and the digital vehicle inspection can be viewed in real-time via your smartphone or tablet.

Your business benefits

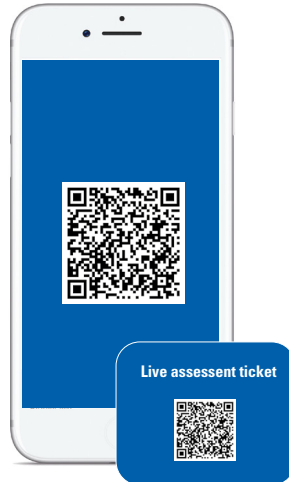

- A digital, visual vehicle inspection is provided by a TÜV SÜD expert via smartphone or tablet - without any physical presence.
- The inspection service can be undertaken regardless of your location.
- Via the app your effort is reduced, thanks to complete online processing of the vehicle inspection process.
- You receive a transparent overview of your vehicle's condition.
- The inspection is carried out on a solid basis at low cost and, if wished, on the basis of your defined returns checklist.

Using BlueNOW! is very easy - you only need to follow four steps

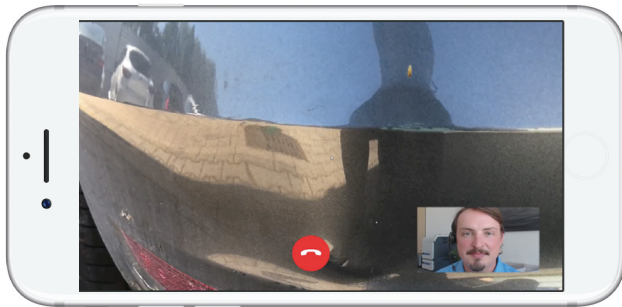

1. Download the app

TÜV SÜD BlueNOW! works on all iOS and Android devices.

2. Registration

The client registers their details by scanning the QR code received from TÜV SÜD.

3. Live digital vehicle inspection

Your customer simply chooses the appointment themselves, directly in the app. Our TÜV SÜD expert contacts the user at the selected time and guides them around the vehicle. The vehicle's condition is transmitted to the expert via video. Once the remote vehicle inspection process is complete, the BlueNOW! report will be generated.

4. Report submission

The client conveniently receives the detailed vehicle inspection report via email.

We are your partner for digital vehicle remarketing solutions

Why choose TÜV SÜD?

TÜV SÜD has a long history in transportation and safety, with over 100 years of experience in providing vehicle testing, inspection and certification solutions. Our international network of interdisciplinary experts leverages this knowledge to develop smart, user-friendly digital solutions. Our customer-focused approach to quality and safety results in solutions that optimise your business processes and provide long-term value, to ensure you are ready to meet future mobility challenges. We always focus on your particular needs, ensuring that the TÜV SÜD person with the most appropriate industry and specialist knowledge is there to help you through the digital vehicle inspection process.

Add value. Inspire trust.

TÜV SÜD is a trusted partner of choice for safety, security and sustainability solutions. It specialises in testing, certification, auditing and advisory services. Since 1866, the company has remained committed to its purpose of enabling progress by protecting people, the environment and assets from technology-related risks. Through more than 25,000 employees across over 1,000 locations, it adds value to customers and partners by enabling market access and managing risks. By anticipating technological developments and facilitating change, TÜV SÜD inspires trust in a physical and digital world to create a safer and more sustainable future.
